

Air-Operated Double Diaphragm Pump Dampener

Dampener designed specifically for AODD Pumps

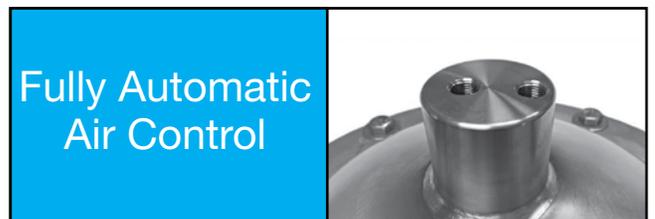

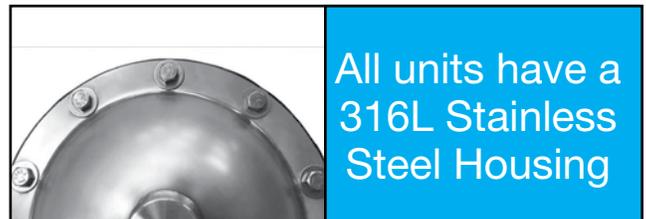

The Blacoh AODDampener is specifically designed for AODD pumps and constructed of 316L Stainless Steel with a PTFE backed diaphragm. This single configuration will allow the unit to handle most AODD applications and is great for off-the-shelf capabilities.

The AODDampener is sourced, manufactured and assembled to ISO 9001 :2008 standards.

Features and Benefits

- MARKET RESPONSIVE TO CUSTOMER NEEDS
- PROTECTS IN-LINE EQUIPMENT
- COMPACT FOOTPRINT
- STANDARDIZED FOR OFF-THE-SHELF CAPABILITIES
- BULK DISCOUNTS AVAILABLE

Air-Operated Double Diaphragm Pump Dampener
